**DIRECTOR, EMERGENCY PREPAREDNESS (PUBLIC HEALTH)**

The Rockland County Department of Health is seeking a candidate to perform technical, administrative and managerial public health work involving responsibility for the development, implementation and coordination of a comprehensive program to ensure a rapid response to emergency public health threat events occurring in Rockland County and its environs.

Candidates must possess thorough knowledge of public health disaster preparedness and response programs, goals and objectives; good knowledge of Federal, State, local laws, rules and regulations pertaining to public health threats and emergency preparedness; good knowledge of local geography, physical resources and governmental organizations; the ability to manage a disaster preparedness plan; the ability to establish and maintain cooperative relations with local officials and the public, especially in emergency situations; the ability to understand and interpret written material, especially laws, regulations and policies and the ability to communicate effectively, both orally and in writing.

**MINIMUM QUALIFICATIONS**

A Masters’ degree in Public Health, Health Services Administration, Emergency Services, Environmental or Biological Sciences, or comparable curriculum, and two (2) years of supervisory, administrative and/or managerial experience in the field of public health.

Candidate must be a legal resident of Rockland County and will be required to take the Director, Emergency Preparedness (Public Health), civil service examination and be reachable on the resulting eligible list to maintain employment.

**Please email resume to** [DOHPersonnel@co.rockland.ny.us](mailto:DOHPersonnel@co.rockland.ny.us). Resumes must clearly demonstrate satisfaction of the above Minimum Qualifications.
