

I.T.S. Coordinator (Transit)

Department of Public Transportation, Rockland County, New York

The County of Rockland is seeking a candidate to coordinate technical work involving the responsibility for maintaining and overseeing the day-to-day operations of the Department of Public Transportation's transit system technologies (e.g. Rockland County's Fixed Route Intelligent Transportation System). The work is performed under the direct supervision of a higher level supervisor and may involve work in the evening and during weekends.

The candidate must possess thorough knowledge of the principles and practices of Fixed Route Intelligent Transportation Systems (ITS) including hardware and software systems; good knowledge of the County of Rockland's public transit system; good knowledge of the principles and practices of computer system administration, including troubleshooting and systems development; ability to organize and coordinate projects as they relate to public transportation Intelligent Transportation Systems (ITS); ability to understand and interpret complex written material; ability to prepare written material; ability to communicate effectively, both orally and in writing; ability to establish and maintain cooperative relationships with others.

MINIMUM QUALIFICATIONS:

A Bachelor's degree or higher in Computer Science, Computer Information Systems, Information Technology, Systems Engineering, or comparable curriculum and three (3) years of professional or technical (i.e. non-clerical) experience in systems administration, network administration, systems analysis or programming, **at least two (2) years of which involved the planning, development, implementation or maintenance of Intelligent Transportation Systems (ITS) projects.**

HOW TO APPLY:

Please mail, fax or email resume to:

Rockland County Department of Public Transportation
