A local law superseding New York State County Law Section 215 relating to the sale of real property located at 18 New Hempstead Road, New City to ND Acquisitions, LLC, its successors and/or assigns.

Be it enacted by the Legislature of the County of Rockland as follows:

Section 1.

The County of Rockland intends to sell the real property located at 18 New Hempstead Road, New City. After public advertisement by the County of Rockland, only a single bid offer was received in response to the request for bids. The bid received was not responsive to the terms of the bid. However, an offer to purchase the real property has been received that exceeds the $4,000,000 estimated value established by an independent licensed appraiser. Under the circumstances, in order to accomplish the goals of the County in a timely fashion, the Legislature of the County of Rockland hereby authorizes the sale of the real property to that offeror.

Section 2.

The Legislature of Rockland County intends by this local law to supersede the provisions of County Law §215(5) and (6).

Section 3.

The Legislature of the County of Rockland determines that it is in the best interest of the County of Rockland to supersede the provisions of §215 of County Law and therefore authorizes the sale of the real property located at 18 New Hempstead Road, New City to ND Acquisitions, LLC, its successors and/or assigns.

Section 4.

The Legislature of Rockland County hereby further authorizes the County Attorney to negotiate and enter into contract with ND Acquisitions, LLC, its successors and/or assigns, for the sale of the real property located at 18 New Hempstead Road, New City, and authorizes its execution by the County Executive.

Section 5.

All New York State laws, local laws and resolutions of the Legislature of Rockland County or the former Board of Supervisors of Rockland County to the extent that the same are inconsistent with the law are hereby superseded by this law.

Section 6.

This local law is adopted subject to a permissive referendum and the clerk is directed to publish notice of the same as required by law.

Section 7.

This local law shall take effect immediately upon its approval by referendum or otherwise as provided by law.

RE: Quarterly Report to Planning and Public Works Committee –
Quarter Ending September 30, 2016

As per the attached letter, I am submitting the Quarterly Report for the period ending September 30, 2016. It is my understanding that this report will be a discussion item on the agenda of the October 13, 2016 Planning and Public Works Committee meeting.

LITIGATION

At this time, the Sewer District is in litigation with Spectraserv and its bonding company. This construction contractor completed a contract for the District that included replacement of a 90' diameter steel digester cover. The cover failed prior to completion. The District is seeking damages for demolition of the failed cover and installation of a new cover. Attached are additional details regarding the Spectraserv litigation. $14,940 has been expended for legal fees during the last quarter and $150,000 has been budgeted for this matter.

The District anticipates mediation and possibly litigation with Metra Ind. Metra is currently installing sewers in the Village of Sloatsburg under the Western Ramapo Project. The contractor has submitted numerous claims, mostly related to complexities of blasting rock near Orange and Rockland gas mains. The District has issued a stop work order on the blasting on several occasions.

CURRENT PROJECTS

Attached is a spreadsheet listing the status of current and active contracts for maintenance, construction and capital projects. The list includes contracts with contractors and consultants. The list also includes recently requested contracts that are pending approval by the Legislature.

FINES/FEES

The District has not been issued any fines and the Board of Commissioners has not waived any impact fees.

AUDIT

As of the date of this letter, the County audit report for 2015 has not been made available to the District.

I plan on attending the Planning and Public Works Committee meeting on October 13th to answer any questions regarding the quarterly report.

Re: Quarterly Reporting to Planning and Public Works Committee

Dear Ms. Philipps:

As you are aware, the Rockland County Legislature voted unanimously on May 17, 2016 to amend the law governing Rockland County Sewer District One. The amendments were signed into law by the County Executive on June 8, 2016.

One of the amendments to the law now requires the Executive Director to report on certain matters to the Legislature on a quarterly basis. Accordingly, this will become part of the Planning and Public Works Committee agenda and take effect with the quarter ending September 30, 2016. The first report, in written form, will be due at the first Planning and Public Works Committee meeting in October of this year. Please submit your report and all subsequent quarterly reports one week prior to the meeting(s) to the Clerk of the Legislature.

The report should contain, at a minimum, the following:

- Status of all ongoing litigation, plus any indication of proposed litigation against Rockland County Sewer District One; or proposed litigation by the Sewer District.
- The costs expensed and projected in connection with the above are to additionally be reported.
- Any fines levied against Rockland County Sewer District One; the reason for the fine and the corrective action taken.

- Any stop work orders issued against any contractor working on behalf of Rockland County Sewer District One; the reason for the stop work order and the corrective action taken.

- A summary of all current work projects and budget status.

- Information regarding approved waivers of any Impact Fees and the reason for the waiver.

- When applicable, the audit report of Rockland County Sewer District One and management's response to any findings.

We ask that you arrange your schedule so as to be available at the Planning and Public Works Committee meetings as appropriate, to answer any questions Legislators may have.

We look forward to working with you, the Commissioners and the Administration to ensure transparency and cost efficiency to the public. Should you have any further questions, please do not hesitate to contact my office. Thank you for your cooperation.

Sincerely

ALDEN H. WOLFE

Secondary Digester Litigation – Represented the County as Plaintiffs in two litigation matters related to the damage to the District's Secondary Digester. The first case is entitled *County of Rockland v. Spectraserv Inc. Case No. 034829/2013 (State Court) C.A. C.A. No. 7:13-cv-07830 (Federal Court).* This case concerns a contract between Defendant Spectraserv Inc. ("Spectraserv") and the County for certain repairs and improvements to the District's Anaerobic Digesters commonly referred to as the Wastewater Treatment Plant Masonry, Roofing, Steel Digester Cover and Building Rehabilitation Project. The contract obligated the Defendant to repair and rehabilitate portions of the masonry and roof of the Primary Digester, a 90 foot diameter structure with a fixed cover and to supply and install a new "floating" cover for the District's Secondary Digester, a 90-foot diameter structure with a moving cover (the "Primary" and "Secondary" Digesters, respectively). After the floating cover for the Secondary Digester was installed, but prior to final completion, the Floating Digester Cover failed causing extensive damage to both the Floating Digester Cover and the Secondary Digester. The County filed a summons and complaint in Supreme Court of the State of New York, Rockland County on September 12, 2013. On November 4, 2013, Spectraserv removed the matter to the Federal District Court for the Southern District of New York based on diversity jurisdiction. However, the parties and the Federal District Court agreed to stay the matter pending mediation before a mediator from the American Arbitration Association. After attending mediation, the mediator declared an impasse. The parties then consented to remand the matter back to Supreme Court, County of Rockland. The parties are currently preparing for discovery. The County will vigorously pursue the matter in Court. Because of the uncertainty of litigation in general, it is not possible to predict the outcome of this case at this time.

The second case in entitled *County of Rockland v. Liberty Mutual Insurance Co., Case No. 035749/2014.* This case stems from the same contract and incident that led to the damage to the District's Secondary Digester. Liberty Mutual Insurance Co. ("Liberty Mutual") is the holder of Spectraserv's performance bond, and as such is potentially liable for payment of the County's damages. The above-referenced mediation was unsuccessful and thus the County will vigorously pursue the matter in Court. The County intends to make a motion to consolidate these cases into one. Because of the uncertainty of litigation in general, it is not possible to predict the outcome of this case at this time.
