**Re: GENERAL MUNICIPAL LAW REVIEW:** Section 239 L and M

**Map Date:** 5/7/2013

**Date Review Received:** 5/29/2013

**Item:** *DECATUR AVENUE HOMES (R-2267B)*

Variance for deck rear setback to allow the continued use and maintenance of a three-family residence with three accessory apartments on .3469 acres in an R-15C zoning district. The residential building was constructed two feet closer to the rear property line resulting in a seven-foot setback rather than the approved nine-foot setback. Variances were previously granted for side setback, total side setback, side yard, rear setback, deck rear setback and the courtyard.

**Reason for Referral:**

Village of Spring Valley

The County of Rockland Department of Planning has reviewed the above item. Acting under the terms of the above GML powers and those vested by the County of Rockland Charter, I, the Commissioner of Planning, hereby:

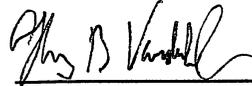

***\*Recommend the following modifications***

1 As noted above, the Village of Spring Valley is the reason this proposal was referred to this department for review. The municipal boundary is immediately adjacent to the southern and eastern property lines of the site. New York State General Municipal Law states that the purposes of Sections 239-l, 239-m and 239-n shall be to bring pertinent inter-community and county-wide planning, zoning, site plan and subdivision considerations to the attention of neighboring municipalities and agencies having jurisdiction. Such review may include inter-community and county-wide considerations in respect to the compatibility of various land uses with one another; traffic generating characteristics of various land uses in relation to the effect of such traffic on other land uses and to the adequacy of existing and proposed thoroughfare facilities; and the protection of community character as regards predominant land uses, population density, and the relation between residential and nonresidential areas. In addition, Section 239-nn was enacted to encourage the coordination of land use development and regulation among adjacent municipalities, and as a result development occurs in a manner which is supportive of the goals and objectives of the general area.

**DECATUR AVENUE HOMES (R-2267B)**

The Village of Spring Valley must be given the opportunity to review the proposal and its impact on community character, traffic, water quantity and quality, drainage, stormwater runoff and sanitary sewer service. Those areas of countywide concern noted above that directly impact the Village of Spring Valley must be considered and satisfactorily addressed, as well as any additional concerns about the revised site plan and required variance.

2 The proposed residential building must comply with all requirements of the New York State Uniform Fire Prevention and Building Code.
