Re: GENERAL MUNICIPAL LAW REVIEW: Section 239 L and M

Map Date: 6/25/2013

Date Review Received: 3/27/2014

Item: *CONGREGATION BLAUVELT (R-2447)*

Variations for front setback, front yard, total side setback, rear setback, maximum development coverage and deck rear setback to allow the construction, maintenance and use of an addition to and the conversion of a two-family residence to a three-family residence with two accessory apartments on .2065 acres in an R-15C zoning district.

East side of Blauvelt Road, opposite Hopal Lane and 300 feet north of Maple Avenue

Reason for Referral:

Village of Kaser, Route 306

The County of Rockland Department of Planning has reviewed the above item. Acting under the terms of the above GML powers and those vested by the County of Rockland Charter, I, the Commissioner of Planning, hereby:

****Recommend the following modifications***

1 Pre-existing, non-conforming lots are given special consideration under Section 376-131 of the Town's Zoning Law. The bulk standards for several residential zoning districts are relaxed to accommodate the residential uses permitted by right in these zones. The subject site is 8,997 SF or 40 percent smaller than the minimum lot area required for new three-family residences in the R-15C zoning district. It is further compromised by an approximately ten-foot wide drainage easement that runs 100 feet from the Blauvelt Road frontage to the rear property line on the north side of the site. This 1000 SF is rendered useless for development purposes. Given that this site benefits from the application of Section 376-131 and is constrained by a large easement area, the proposed number of units shall be reduced. We recommend that the two accessory units be eliminated, and the proposed addition scaled back.

CONGREGATION BLAUVELT (R-2447)

2 Permitting development that does not comply with the applicable bulk standards can set an undesirable land use precedent and result in the overutilization of individual sites. In addition to several yard and setback variances, the applicant is seeking a 40 percent increase over the maximum allowable development coverage on an environmentally constrained site. The ability of the existing infrastructure to accommodate increased residential density on non-conforming parcels is a countywide concern and must be evaluated. This evaluation must consider whether local roads will become more congested and the sewer system, stormwater management systems and the public water supply will be overburdened. The Town must consider the cumulative and regional impacts of permitting such development.

3 The Village of Kaser is one of the reasons this proposal was referred to this department for review. The municipal boundary is along the southern property line and 100 feet east of the site. New York State General Municipal Law states that the purposes of Sections 239-l, 239-m and 239-n shall be to bring pertinent inter-community and countywide planning, zoning, site plan and subdivision considerations to the attention of neighboring municipalities and agencies having jurisdiction. Such review may include inter-community and county-wide considerations in respect to the compatibility of various land uses with one another; traffic generating characteristics of various land uses in relation to the effect of such traffic on other land uses and to the adequacy of existing and proposed thoroughfare facilities; and the protection of community character as regards predominant land uses, population density, and the relation between residential and nonresidential areas. In addition, Section 239-nn was enacted to encourage the coordination of land use development and regulation among adjacent municipalities, and as a result development occurs in a manner that is supportive of the goals and objectives of the general area.

The Village of Kaser must be given the opportunity to review the proposal and its impact on community character, traffic, water quantity and quality, drainage, stormwater runoff and sanitary sewer service. The areas of countywide concern noted above that directly impact the Village of Kaser must be considered and satisfactorily addressed, as well as any additional concerns about the proposal.

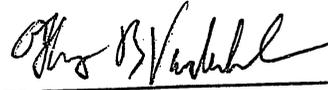

4 A review shall be completed by the New York State Department of Transportation and any required permits obtained.

5 The proposed residential building must comply with all requirements of the New York State Uniform Fire Prevention and Building Code. As noted in the Town of Ramapo Building, Planning and Zoning Department's March 10, 2014 denial letter, exit stairs and ramps are not permitted within ten feet of the property line. A variance from Section 1024.3 of the New York State Building Code will be required.

6 Parking spaces 1 and 2 extend into the easement area. The location of the existing staircase prevents vehicles from maneuvering in and out of spaces 1, 2 and 3. The conflicts are noted in the March 10, 2014 denial letter, and are a clear indication that this proposal will result in an overutilization of the site. The proposed addition and the number of units must be reduced so that the residential building more closely conforms to the R-15C bulk requirements, and all required on-site parking can be provided.

7 It will not be possible for sanitation workers to access to the dumpster enclosure if vehicles are parked in spaces 5 and 6. The dumpster enclosure must be moved to a more accessible location. A dumpster enclosure must be shown on the site plan. Sanitation workers must be able to easily access the dumpster.

CONGREGATION BLAUVELT (R-2447)

**NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings.*

The review undertaken by the Rockland County Planning Department is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The Rockland County Planning Department defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.

In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the preemptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.

Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief.
