Re: GENERAL MUNICIPAL LAW REVIEW: Section 239 L and M
Map Date: 3/2/2018

Date Review Received: 4/9/2019

Item: 7 VINCENT PROPERTIES, LLC./17 VINCENT ROAD (R-2304B)

Variance required for an accessory apartment, exceeding 1,200 SF, in an existing three-family dwelling with three accessory apartments on .2916 acres in an R-15C zoning district. Front yard, front setback, side setback, total side setback, rear setback, development coverage and courtyard variances were previously granted for this pre-existing, non-conforming parcel.

North side of Vincent Road, approximately 450 feet northwest of the intersection with Elish Parkway

Reason for Referral:

Village of Spring Valley, Pascack Brook

The County of Rockland Department of Planning has reviewed the above item. Acting under the terms of the above GML powers and those vested by the County of Rockland Charter, I, the Commissioner of Planning, hereby:

****Disapprove***

1 Pre-existing, non-conforming lots are given special consideration under Section 376-131.D.(1) of the Town's Zoning Law. The bulk standards for several residential zoning districts are relaxed to accommodate the residential uses permitted by right in these zones. The subject site is 12,702 SF or 15 percent smaller than the 15,000 SF minimum lot area required for new three-family residences in the R-15C zoning district. The applicant has been permitted to development 52 percent more of the site than the allowed maximum. Several yard and setback variances were also granted. A courtyard variance was required for the existing structure. Given that this site benefits from the application of Section 376-131.D.(1) and additional relief was previously granted, we recommend that the requested variance be denied.

7 VINCENT PROPERTIES, LLC./17 VINCENT ROAD (R-2304B)

2 Permitting development that does not comply with the applicable bulk standards can set an undesirable land use precedent and result in the overutilization of individual sites. As noted above, the subject site benefits from the application of relaxed bulk standards pursuant to Section 376-131.D.(1), and seven variances were previously granted. The ability of the existing infrastructure to accommodate increased residential density on undersized and non-conforming parcels is a countywide concern and must be evaluated. This evaluation must consider whether local roads will become more congested and the sewer system, stormwater management systems and the public water supply will be overburdened. The Town must consider the cumulative and regional impacts of permitting such development. The variance to allow a larger than permitted accessory unit shall not be granted.

The following comments address our additional concerns about this project.

3 A review must be completed by the Rockland County Health Department to ensure compliance with Article XIX (Mosquito Control) of the Rockland County Sanitary Code.

4 The applicant must comply with the conditions of the Rockland County Sewer District #1's letter of May 9, 2019.

5 The residential building must comply with all requirements of the New York State Uniform Fire Prevention and Building Code. It appears that a NYS variance is required since the side staircases are only five feet from the property line.

6 A review must be completed by the Rockland County Office of Fire and Emergency Services, the Town of Ramapo Fire Inspector, or the Monsey Fire Department to ensure that there is sufficient maneuverability on site for fire trucks, in the event an emergency arises.

7 The Village of Spring Valley is one of the reasons this proposal was referred to this department for review. The municipal boundary is along the northern property line of the site. New York State General Municipal Law states that the purposes of Sections 239-l, 239-m and 239-n shall be to bring pertinent inter-community and countywide planning, zoning, site plan and subdivision considerations to the attention of neighboring municipalities and agencies having jurisdiction. Such review may include inter-community and county-wide considerations in respect to the compatibility of various land uses with one another; traffic generating characteristics of various land uses in relation to the effect of such traffic on other land uses and to the adequacy of existing and proposed thoroughfare facilities; and the protection of community character as regards predominant land uses, population density, and the relation between residential and nonresidential areas. In addition, Section 239-nn was enacted to encourage the coordination of land use development and regulation among adjacent municipalities, and as a result development occurs in a manner that is supportive of the goals and objectives of the general area.

The Village of Spring Valley must be given the opportunity to review the proposal and its impact on community character, traffic, water quantity and quality, drainage, stormwater runoff and sanitary sewer service. The areas of countywide concern noted above that directly impact the Village of Spring Valley must be considered and satisfactorily addressed, as well as any additional concerns about the proposal.

8 A review must be completed by the Rockland County Drainage Agency, and all required permits obtained.

9 Given the size of the building footprint, we believe the FAR may be understated. The gross floor area must be indicated on the site plan, as well as the floor area ratio calculation. The floor area shall be broken down by unit. This is particularly critical for the subject application since at least one accessory apartment is larger than originally proposed, and in excess of the permitted maximum floor area. If a variance is required for FAR, a revised ZBA application must be referred to this department for review as mandated by the New York State General Municipal Law.

10 The development coverage calculation must be provided on the site plan so its accuracy can be verified.

7 VINCENT PROPERTIES, LLC./17 VINCENT ROAD (R-2304B)

- 11 The deficient measurements for front setback, front yard and side setback shall be indicated on the site plan.
- 12 The required parking spaces must be indicated on the site plan so on-site maneuverability and pedestrian safety can be evaluated.
- 13 A dumpster enclosure must be shown on the site plan and easily accessible to sanitation workers. Parked vehicles must not block access.
- 14 The site plan shall contain map notes that list all appropriate information, including the district details. The applicant's engineer has been reminded of this requirement, and the importance of providing these details.
- 15 Pursuant to the Rockland County Sanitary Code, Article XIII, Section 13.8.1, all multiple dwellings with three or more rental units must register and obtain a Multiple Dwelling Rental Certificate (MDRC). If this proposed multi-family dwelling meets the requirements of the Multiple Dwelling Rental Registry requirement, then the owner must register and obtain the MDRC. Failure to comply is a violation of Article XIII, which may result in penalties of \$2,000 per day.
- 16 Pursuant to General Municipal Law (GML) Section 239-m and 239-n, if any of the conditions of this GML review are overridden by the board, then the local land use board must file a report with the County Commissioner of Planning of the final action taken. If the final action is contrary to the recommendation of the Commissioner, the local land use board must state the reasons for such action.
- 17 In addition, pursuant to Executive Order 01-2017 signed by County Executive Day on May 22, 2017, County departments are prohibited from issuing a County permit, license, or approval until the report is filed with the County Commissioner of Planning. The applicant must provide to any County agency which has jurisdiction of the project: 1) a copy of the Commissioner report approving the proposed action; or 2) a copy of the Commissioner of Planning recommendations to modify or disapprove the proposed action, and a certified copy of the land use board statement overriding the recommendations to modify or disapprove, and the stated reasons for the land use board's override.

Mona Montal, Chief of Staff
Rockland County Planning Board Members

**NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings. The review undertaken by the Rockland County Planning Department is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The Rockland County Planning Department defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.*

7 VINCENT PROPERTIES, LLC./17 VINCENT ROAD (R-2304B)

In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the preemptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.

Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief.

Pursuant to New York State General Municipal Law §239-m(6), the referring body shall file a report of final action it has taken with the Rockland County Department of Planning within thirty (30) days after final action. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report.
