Re: GENERAL MUNICIPAL LAW REVIEW: Section 239 L and M

Map Date: 5/6/2015

Date Review Received: 6/29/2018

Item: 8 MERRICK DRIVE (SV-916)

Variances to permit the construction of a two-family dwelling located on .22 acres in the R-1A zoning district. Requested variances include: front yard, side yard, and total side yard. This is a re-approval of the variances for the proposed site plan, as the initial review was not submitted to the Rockland County Department of Planning, as required under New York State General Municipal Law, Section 239L. South side of Merrick Drive, approximately 255 feet west of Union Road

Reason for Referral:

Town of Ramapo

The County of Rockland Department of Planning has reviewed the above item. Acting under the terms of the above GML powers and those vested by the County of Rockland Charter, I, the Commissioner of Planning, hereby:

****Recommend the following modifications***

1 Permitting development that does not comply with the applicable bulk standards can set an undesirable land use precedent and result in the overutilization of individual sites. The proposed front yard is deficient by 32%; the side yard by over 33%; and the total side yard by 12%. The ability of the existing infrastructure to accommodate increased residential density on undersized parcels is a countywide concern and must be evaluated. This evaluation must consider whether local roads will become more congested and the sewer system, stormwater management systems and the public water supply will be overburdened. The Village must consider the cumulative and regional impacts of permitting such development.

2 The bulk table lists the building height to be less than 35 feet and 3 stories. In addition, the floor area ratio is listed as less than .65. Specific dimensions must be provided in the bulk table for these measurements.

8 MERRICK DRIVE (SV-916)

3 The surrounding neighborhood is characterized by similarly-sized parcels. Granting these bulk variances will set a precedent that may result in nearby property owners seeking the same relief. Such an increase in density would alter and negatively impact the community character in this neighborhood. The proposal shall be scaled back to more closely conform to the R-1A bulk standards.

4 The Town of Ramapo is the reason this proposal was referred to this department for review. The municipal boundary is approximately 255 feet east, and 315 feet south of property line of the parcel. New York State General Municipal Law states that the purposes of Sections 239-l, 239-m and 239-n shall be to bring pertinent inter-community and countywide planning, zoning, site plan and subdivision considerations to the attention of neighboring municipalities and agencies having jurisdiction. Such review may include inter-community and county-wide considerations in respect to the compatibility of various land uses with one another; traffic generating characteristics of various land uses in relation to the effect of such traffic on other land uses and to the adequacy of existing and proposed thoroughfare facilities; and the protection of community character as regards predominant land uses, population density, and the relation between residential and nonresidential areas. In addition, Section 239-nn was enacted to encourage the coordination of land use development and regulation among adjacent municipalities, and as a result development occurs in a manner that is supportive of the goals and objectives of the general area.

The Town of Ramapo must be given the opportunity to review the proposal and its impact on community character, traffic, water quantity and quality, drainage, stormwater runoff and sanitary sewer service. The areas of countywide concern noted above that directly impact the Town of Ramapo must be considered and satisfactorily addressed, as well as any additional concerns about the proposal.

5 The use of tandem parking spaces prevents egress for vehicles blocked by other vehicles and creates an inconvenient situation for residents. This layout will encourage residents to park vehicles off-site instead of in their designated spaces and negates the purpose of on-site parking requirements. The tandem parking spaces must be reconfigured to allow independent access for all parking spaces.

6 The site plan shall contain map notes, including district information.

7 The application form indicates the property receives water service from United Water. The form must be corrected to Suez.

8 The NYS Department of State has determined that the Village is not administering or enforcing the State Uniform Fire Prevention and Building Code in accordance with minimum standards set forth in 19 NYCRR part 1203. Given the concerns about the Village's administration and enforcement of the State Uniform Fire Prevention and Building Code initially raised in the Executive Deputy Secretary of State's letter of July 15, 2016, and subsequently again in December 18, 2017, the proposed residential building must be held to the requisite minimum standards and comply with all requirements of this code.

9 A review must be completed by the County of Rockland Sewer District #1, any comments or concerns addressed, and all required permits obtained.

10 Pursuant to General Municipal Law (GML) Section 239-m and 239-n, if any of the conditions of this GML review are overridden by the board, then the local land use board must file a report with the County Commissioner of Planning of the final action taken. If the final action is contrary to the recommendation of the Commissioner, the local land use board must state the reasons for such action.

8 MERRICK DRIVE (SV-916)

11 In addition, pursuant to Executive Order 01-2017 signed by County Executive Day on May 22, 2017, County departments are prohibited from issuing a County permit, license, or approval until the report is filed with the County Commissioner of Planning. The applicant must provide to any County agency which has jurisdiction of the project: 1) a copy of the Commissioner report approving the proposed action; or 2) a copy of the Commissioner of Planning recommendations to modify or disapprove the proposed action, and a certified copy of the land use board statement overriding the recommendations to modify or disapprove, and the stated reasons for the land use board's override.

Douglas J. Schuetz
Acting Commissioner of Planning

Construction Expediting Inc.

**NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings.*

The review undertaken by the Rockland County Planning Department is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The Rockland County Planning Department defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.

In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the preemptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.

Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief.

Pursuant to New York State General Municipal Law §239-m(6), the referring body shall file a report of final action it has taken with the Rockland County Department of Planning within thirty (30) days after final action. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report.
