**POMONA POINTE AT WEST HAVERSTRAW (WH-171)**

6 Water is a scarce resource in Rockland County; thus proper planning and phasing of this project are critical to supplying the current and future residents of the Villages, Towns, and County with an adequate supply of water. The water system must be evaluated to determine if the additional water supply demands of the proposed development can be met. Domestic and fire demands of the project must be determined by a Licensed Professional Engineer and provided to the supplier of water for analysis. Demand calculations and results of the analysis must be provided to the Rockland County Department of Health for review.

*\*NYS General Municipal Law Section 239 requires a vote of a 'majority plus one' of your agency to act contrary to the above findings.*

*The review undertaken by the Rockland County Planning Department is pursuant to, and follows the mandates of Article 12-B of the New York General Municipal Law. Under Article 12-B the County of Rockland does not render opinions, nor does it make determinations, whether the item reviewed implicates the Religious Land Use and Institutionalized Persons Act. The Rockland County Planning Department defers to the municipality forwarding the item reviewed to render such opinions and make such determinations if appropriate under the circumstances.*

*In this respect, municipalities are advised that under the Religious Land Use and Institutionalized Persons Act, the preemptive force of any provision of the Act may be avoided (1) by changing a policy or practice that may result in a substantial burden on religious exercise, (2) by retaining a policy or practice and exempting the substantially burdened religious exercise, (3) by providing exemptions from a policy or practice for applications that substantially burden religious exercise, or (4) by any other means that eliminates the substantial burden.*

*Proponents of projects are advised to apply for variances, special permits or exceptions, hardship approval or other relief.*
